

## Java (Core) topics

<b><u>Basics</u></b>	<b><u>Intermediate</u></b>	<b><u>Advanced</u></b>
JDK, JRE, & JVM	Generics	Advanced Multithreading
What is Java? (History)	Collections	Advanced JDBC Operations
Data Types	Multithreading	Lambda Expressions & Streams
Variables	Concurrency	Advanced Data Structures
Looping Statements	Java Networking	Advanced Reflection
Conditional Statements	JDBC	Advanced Debugging
OOPs Concept	Advanced Exception Handling	Security in Java Applications
Arrays	Enumerations	Performance & Optimization
Strings	Annotations	
Exception Handling	Reflections in Java	
Input/ Output Operations	File I/O Operations	
Java Collections	Serialization	
Inheritance	Deserialization	
Polymorphism		
Basic Database Operations
